WTFpga: FPGA Crash Course

Josh Johnson

9/9/2019

Things I'll Forget

- PMOD and LED Matrix FeatherWings
- Software
- Dead Boards
- Spare Boards
- Errors in lab manual or code
- More stuff: `github.com/joshajohnson/iCE40-feather`
  - Pull requests with example projects welcomed!
- Future topics:
  - FPGA Internals and Implementation
  - HDL
  - Simulation
  - UART
  - LED Matrix
  - You tell me!

Future Dates / Events

Silvio is off hacking next month, so we will need to change the date.

- **Move it forward** to October 7th
- Move it backwards
- Move to somewhere else
- Skip a month

In October / November Josh will have limited time to work on things - all help welcomed!

In December I won't be in Canberra any more, and as such if someone wants to take over organising this meetup get in contact with Silvio.

The End

Say Hello!
